## EDUCATION

### UNIVERSITY OF MICHIGAN SCHOOL OF INFORMATION, Ann Arbor, MI

*Master of Science in Information, Data Science and Analytics*

Anticipated 05/26

- **Relevant Coursework:** Data Manipulation & Analysis (Python/Pandas, SQL, ML), Data Mining: Methods & Applications, Introduction to Statistics & Data Analysis (R), Networks (Graph Theory & Network Analytics), Online Communities (Social Computing Analysis), Becoming a Data Scientist (Data Communication & Ethics), Linux/Git Servers, Shell & Git, Python 3/Programming, R Studio/Intro to Data Analysis, Mathematical Foundations for Applied Data Science, Intermediate Programming

### UNIVERSITY OF MICHIGAN SCHOOL OF PUBLIC HEALTH, Ann Arbor, MI

*Bachelor of Science in Public Health*

08/22

- Honors: 3.63 GPA, Double University Honors.
- 

## PROFESSIONAL EXPERIENCE

### University of Michigan, Ann Arbor, MI

*Program Assistant, Office of the Provost*

08/24 - 08/25

- Publish and update travel safety and identity abroad content on the Global Michigan website using WordPress
- Create and manage educational materials (videos, slide decks, PDFs) on topics such as Travel Abroad Health Insurance, Accessibility for Students with Disabilities, and Mental Health Abroad
- Collaborate with team members to develop travel health and safety content for pre-departure orientations and highlight destination-specific risks
- Curate and organize information from multiple sources to produce web content and resource guides tailored to the needs of diverse stakeholders
- Designed and produced a 5-part video series covering the full travel lifecycle (pre-departure through return to campus)
- Support the development of communication materials and assist with additional projects as needed

### Mahidol University, Bangkok, Thailand

*Foreign expert*

12/22 - 07/24

- Facilitated joint research and collaboration initiatives by partnering with 186 universities across Asia and globally, enhancing academic exchange and international partnerships.
- Conducted field research and implemented targeted solutions to address rising public health concerns, contributing to community health improvement.
- Contributed as a committee member to various special university projects, participating in report preparation and project execution, which facilitated the completion of strategic initiatives.

### University of Michigan, Ann Arbor, MI

*Career Support Specialist*

09/21 - 05/22

- Supported students in the School of Public Health seeking employment by providing individualized assistance and guidance, resulting in improved job application outcomes.
  - Developed a website of career resources for students to access employment opportunities, resume templates, and job search strategies, enhancing student access to career-related tools.
  - Created handouts and facilitated workshops to improve student resumes and cover letters, leading to stronger application materials and higher interview rates.
- 

## SKILLS

- **Programming & Tools:** Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), R (tidyverse), SQL, Git/GitHub, Linux/Shell Scripting
- **Data Science & Analytics:** Exploratory Data Analysis (EDA), Statistical Analysis, Hypothesis Testing, Regression Modeling, Machine Learning (classification, clustering, dimension reduction), Data Cleaning & Preprocessing, Data Wrangling, Data Scraping & Automation
- **Big Data & Technologies:** Distributed Computing (Dask, Spark), Large-scale Data Processing
- **Network & Social Data Analysis:** Network Metrics & Graph Analysis, Community Detection, Social Computing Evaluation
- **Visualization & Communication:** Data Visualization (Python/R), Dashboard & Reporting Fundamentals, Data Storytelling for Technical & Non-Technical Audiences
- **Project Management & Research:** Project Planning, User & Stakeholder Research, Qualitative Analysis, Collaboration & Communication, Ethical Decision-Making in Data Science
